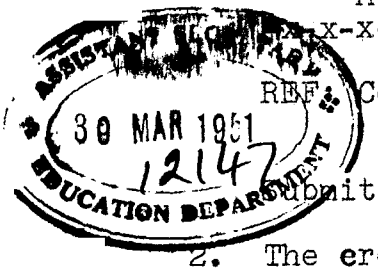
REF: Commissioner's letter No.9678/50-B1 dated 25--2--1951.



Submitted to Government.

2. The credit for Government grant under section 37 of the Madras Elementary Education Act in the Revised Estimate may be increased to Rs.4,912/-.

3. In two schools accommodation is inadequate.

4. Five schools have to be provided with school-gardens.

5. In two schools play-area is insufficient. Five other schools have yet to be provided with playgrounds.

6. As the Elementary Education Fund has become self-supporting consequent on the increase of Education-Tax the Commissioner's request for full building grants from State-funds towards two schemes every year does not seem to be quite necessary. Further there is no resolution of the Municipal Council in support of this request. The possibility of raising the usual contribution from the General account has not also been commented upon by him.

Sir,

Sub :- Budget Estimate - Budget Estimate for 51-52 & Revised Estimate for 50-51 of Hospet Municipality-Elementary Education Fund - submitted.

I beg to submit herewith in duplicate the revised estimate for 50-51 & budget estimate for 51-52 relating to the Elementary Education fund of this Municipality with the necessary enclosures, together with a copy of my note to the Council d/27-1-51 and copy of Council's Resolution NO:650/16 --2-- 50 approving the same, with the following remarks :

The main features of the revised estimate for 50-51 and budget estimate for 51-52 have been explained in detail in my note D/27-1-50 to the Council. The note may kindly be read as part of this letter. Though the revised estimate for 50-51 & budget estimate for 51-52 are expected to close with surplus balance, it can be said that the financial position of this fund is very slender. Out of the nine schools maintained by this Municipality, only one school is located in a proper school building and the remaining eight schools are located in buildings which are not well suited for school purposes (One in a portion of the Municipal Office building, one in the Government Training School and the remaining schools in rented buildings.) The Municipality is paying a sum of Rs.1800/- per year by way of rent to school buildings and the Municipality has not been in a position to provide its own buildings for accomodating the elementary schools and no school has proper playground. Unless the Government comes to the aid of this Municipality by way of full grants for providing school buildings and playgrounds, there is no possibility for this Council to provide the minimum school facilities for furthering the Elementary Education itself. In view of the circumstances explained above, the Government are requested to grant full grants for providing at the rate of two school buildings per year so that all the eight schools under the management of this Municipality will have proper buildings within a course of 4 years.

The year 50-51 was expected to open with nil balance as per the budget estimate for 50-51 but the year actually opened with a surplus balance of Rs.5087/-

As against the usual procedure this account has become a self supporting one from this year. This is due to the fact that the Education Tax was ~~receive~~ raised from 2½% to 3½% on property tax per year from 1-4-50. In addition to this ¼ of the profession tax levied from 1-4-50 is allotted as Education Tax.

The Revised Estimate for 50-51 opened with a surplus balance of Rs.5087/- and closes with a surplus balance of Rs.2347/- the receipts & charges being Rs.29390/- and Rs.32130/- respectively. No additional provision has been made. The provision made is for the existing staff and contingencies etc., as usual. Under 'house rent' the provision has been increased in the revised estimate as one more building has to be taken on rent for accomodating the Telugu school after the building wherein the Telugu school & library are situated have to be handed over to Government for locating the Government girls' middle school. Both in the revised estimate for 50-51 and budget estimate 51-52 the usual contribution of Rs.3360/- from general funds to the Elementary Education fund has been provided.

The budget estimate for 51-52 opens with a surplus balance of Rs.2347/- and closes with a surplus balance of Rs.4407/- the receipts & charges being Rs.35960/- and Rs.33900/- respectively. In the budget estimate provision has been made for the appointment of two teachers one for the main mohammadan boys school and Hindu elementary school for the conversion of these two schools into higher elementary schools. Provision has also been made to pay the rent of the building which is going to be taken for locating the Telugu school. At present 6 schools are located in rented buildings, one in a portion of the municipal office building, one in a portion of the Government Training School and one in the Municipal building constructed for school purpose. Almost all the schools have no play grounds and most of the buildings are not well suited for locating the schools. All these years the elementary education fund was not a self supporting account and large contributions had to be paid from general funds. It is hoped that in future this fund will become a self supporting one and the question of providing departmental buildings can be taken up in future. As a matter of fact, this Municipality is spending Rs.1800/- per year towards rent on 6 buildings for the schools. If the Council desires the Government can be requested to sanction half grant for constructing the school buildings and the remaining half of the cost can be met by taking loan from Government and the loan repaid in easy annual instalments ranging upto 30 years.
